

Declaration of interest for an exchange with Fermilab

The recently signed collaboration between JGU and Fermilab supports JGU's junior researchers to spend a period of several months at one of the world's leading high-energy physics institutions.

Eligible for application are PhD students, postdocs, and (junior) group leaders of JGU. Applicants, respectively their working groups, are only expected to cover the travel expenses. Housing will be provided by the partner institute. The exchange is available e.g., for lab visits, scientific collaboration meetings and workshops or practical training courses.

If you are interested, please fill out the application form and hand it in with all the attachments at the THEP secretary or by e-mail (thep-sekretariat@uni-mainz.de). Please hand in your declaration of interest at least 3 months before the stay.

There are no submission deadlines and the exchange program is applicable for all members of JGU – either from experimental or theory groups. Decisions will be taken typically within 4 weeks.

Personal information

- Name:

- Address:

- Email address:

- Institute:

- Working Group:

Specifications of the visit

- Type of project/purpose of stay (e.g. lab visit, workshop, training course):

- Preferred division or working group:
